Rupert Hu	RH	Team 26	Rupert Hu
Thiren Naidoo	TN	Team 26	Seharsh Srivastava
Jordan Russell	JR	Team 26	
Lachlan Russell	LR	Team 26	
Seharsh Srivastava	SS	Team 26	
Ben Smith	BS	Fat Groper	
Scott Chester	SC	Fat Groper	

Meeting Lead Beining Chen
Minutes Beining Chen

Outcomes

1	Discuss Scope
2	Raise Questions in the register

Meeting minutes**Team 26****1 Scope**

	Item	Discussion
1.1	Google authentication is preferred over Facebook	
1.2	Hobby lists are set by admin, users are not allowed to add new hobbies, no	
1.3	category for hobbies is fine though	
1.4	The location is good to be live based	
1.5	Internal star rating is a good idea, however the admin can set few questions of each user for other users to choose thumbs-up or thumbs-down. Red flag (reporting) may be out of scope	
1.6	Admin can search for users and users can report users by sending an email to the admin	
1.7	They will need a system administrator and security audit before going live	
1.8	Matching function	
1.8.1	Users can't initiate contact without a 2-way match	
1.8.2	It is unknown whether someone has already liked you before you like/pass them	
1.8.3	Ben and Scott agreed with and appreciate the idea of notification function for matching, but it does not show if someone has liked you	
1.8.4	Scott came up with a new important idea, which is, people can discover/share/swap hobbies, and we need to specify what hobbies the user is sharing and what hobbies the user is discovering and what hobbies the user wants to swap (For example, user that loves fishing and has fishing equipment but wants to learn diving, they can swap the fishing hobby with users who can teach diving), this is going to be discussed by team members at the next meeting	
1.8.5	Ranking for multiple hobby matches is considered	All

2 Query Register

	Item	Discussion
2.1	All the technical queries questions are answered clearly by Ben and Scott	All

3 Wireframe & pages

	Item	Discussion
3.1	The Wireframe is shown and provided to Scott and Ben and they are happy with it	LR
